

Write a program to print the size of int, char, float, double and long double data types in C

```
#include<stdio.h>
#include<conio.h>
int main()
{
    char a[10]="Nepal5";
    int b=10;
    float c=20.2;
    double d=5e60;
    long double e=100e10;
    printf("%d,%d,%d,%d,%d.",sizeof(a),sizeof(b),sizeof(c),sizeof(d),sizeof(e));
}
```
